

Self-assessment survey group 1

One advantage of working as a member of a team is that you can benefit from each other's strengths. The purpose of this self-reflection / evaluation is to give recognition to the varied contributions that individuals make to the working of a team. As a team you need to give 5 criteria on which you are going to evaluate your collaborations. Upload these criteria to Canvas by the specified deadline. The course examiner will use the completed form as a guide to adapt the group grade to a personalized grade.

Important: comment on (the lack of) contribution of one of your fellow students in the mid-term assessment, giving him/her the opportunity to improve! **Fill in the form in the presence of a supervisor when you expect differences in perception.**

1. List the names of your team in the table below.
2. Criteria you have defined for the team evaluation:
 - a. Contribution to the assignments
 - b. Being critical on other's work
 - c. Contribution during the meetings
 - d. Ability to work together
 - e. Helping others out
3. Allocate points to each member of your team for the chosen criteria. You are encouraged to use the range of points at your disposal and avoid the tendency to give everyone a similar score.
4. Use the following grading system, where *average* refers to the average contribution of members of *your* team to that particular criterion:
 1. minimal or no contribution at all
 2. below average
 3. average
 4. above average
 5. outstanding

<u>Team member</u>	A	B	C	D	E	<u>Total</u>
Jens Peeters	3	4	2	3	4	16
Jim van Mook	3	2	3	4	3	15
Myrthe Boone	4	3	4	3	3	16
Lieke Bergmans	3	3	4	2	4	16
